**Chapel Hill 2020 Special Presentation:
Carolina North Development Agreement
1/25/2012 12:00 PM**

A development agreement is a unique tool that is useful for large projects that will be built over many years. A development agreement provides the developer (in this case, the University of North Carolina at Chapel Hill) a level of certainty about what it can build and what mitigation measures will be required. It also provides the Town with the opportunity to look at the long-term horizon and make sure it fits with the Town's comprehensive planning efforts and local policies.
